Objective:

Computer Science graduate passionate about technology and problem-solving, with academic experience in web development, UI/UX design, and data handling. Eager to start a career in the IT industry by applying technical skills in **front-end development**, **IT support**, **data entry**, and **data analysis**. Quick learner, detail-oriented, and committed to continuous growth.

Work Experience:

City Information Communication and Technology Office - Trece Martires - Intern

July 2024 - September 2024

Frontend Developer

During my internship, I worked on the Queuing Management System by designing the UI and integrating it with backend functions, including dynamic dropdowns and database-linked transaction tables. The experience highlighted the value of my coursework and teamwork, while also showing me the need to strengthen my backend development skills for future full-stack projects.

Front-End & UI Design:

- **Languages**: HTML, CSS, Javascript
- **Frameworks/Libraries**: React.js, jQuery
- **Styling Tools**: Bootstrap, Tailwindcss
- **API Integration: Axios** for REST API handling
- **Build & Tools**: **Vite**, React-Toastify, Git & GitHub
- UI Design (Figma, Adobe XD)
- **Responsive Design**: Mobile-first and cross-browser compatibility

Tech Support & IT Tools

- Windows OS troubleshooting
- Software installation & updates
- Remote tools (TeamViewer, AnyDesk)
- File system navigation & troubleshooting

Data Handling
